

COVID Testing Policies

Updated August 2023

If	Then
A child is exposed at school:	Your child may remain at school. Please monitor for symptoms and test if symptoms develop.
A child is exposed at home and is vaccinated or unvaccinated:	Your child may remain at school, as long as testing negative and not displaying symptoms.
A child is exposed outside of the home and is vaccinated or unvaccinated:	Your child may remain at school. Please monitor for symptoms and test if symptoms develop.
A child has covid:	Your child should isolate at home for at least 5 days. If your child is capable of masking, they may return to school with a negative test after day 5 if symptoms have resolved. If your child is unable to wear a mask, they may return after 5 days with a negative test. If your child does not test negative before day 10, they may return after completing a 10 day quarantine regardless of test results. Please note that the negative test in both scenarios must be taken at school.

Acceptable testing formats include:

- 1: A negative rapid test performed at school
- 2: A negative rapid antigen test performed by a lab with results turned in
- 3: A negative PCR test with results turned in
